Subject: Product End of Life – Acrylic Shield for Torqo (PN#53.500350)

Dear Mesa Customer,

Effective immediately, Mesa Labs is discontinuing the current design of the Acrylic shield for the Torqo models (PN# 53.500350). Mesa Labs will continue to accept RMAs for service for 12 months from the date of this notice.

A new shield design will be available for the Torqo by Aug 2017. If a shield is mandatory for your application we suggest the ST-120S with the safety enclosure assembly (PN# 000-1473). For more information about our bottle cap torque testers, please visit our website at <http://torque.mesalabs.com/>

Mesa appreciates your business and looks forward to serving you for many years to come. If you have any questions about the discontinuation of the Torqo shield, please feel free to contact Gabor Szakacs at gszakacs@mesalabs.com.

Sincerely,

The Mesa Team
